JUNE & JULY
MAKURU
SEASON OF FERTILITY

Makuru, represented by dark blue, marks
 the coldest and wettest time of the year in
 the South West.

Makuru brings strong rains, cooler weather, and
 bright flashes of lightning. The winds help new life
 grow, while thunder moves through the sky.
 Noongar people head inland to places rich in food
 and water, using fire for warmth, light, and cooking.

Noongar words:
 Koondarnangor - Thunder
 Weitj - Emu
 Karl - fire
