

Water Safety Workshop

Water safety awareness and the ability to swim are central to the Western Australian lifestyle.

Our climate and diversity of waterways promote a range of social, recreational, and sporting activities that provide extensive health and social benefits to the community.

We invite parents to join us for this workshop in which we explore the different bodies of water and equip participants with knowledge that enables them to identify dangers in and around water.

We will also cover basic rescue techniques.

**Bookings
are
essential**
