

# Job Hunting Strategies for Finding Work

Did you know that more than 1 in 3 jobs are not advertised on websites like Seek? This means if you only look online, you might miss many work opportunities.

Many jobs are found through friends, family, community groups, and talking directly to employers.

In this session, you will learn practical ways to find these “hidden jobs” and connect with employers with more confidence.

You will learn how to:

- Find jobs that are not advertised online
- Use your own networks — friends, family, community — to find opportunities
- Make a good impression using a simple personal introduction
- Talk directly to employers in your chosen industry
